Torrance Scores 11th Inning Win

In an overtime game played Tuesday afternoon at Torrance Park, Torrance High Varsity came through in the eleventh frame to nose out the Inglewood Sentinal horsehiders, 6 to 5.
The climax of the baseball classic came after it was decided to call the game in the 11th inning. Bill Williams, Tartar third sacker, connected with a short hit and on an Inglewood over-throw went to second. First baseman Jim Armstrong grounded and Ron Veres, Torrance moundsman, hit to third. A second over-

throw then let William the winning run.

288% INCREASE
in steelworkers' wages and benefits in 18 years

30% increase
in shipments per man-hour worked

Steelworkers' wages and employment benefits paid for by their employers have increased 288 percent in the last 18 years. Earnings of the men who make steel are at the top level for all industry. Also those steelworkers' earnings have increased faster than the average workers'. But shipments of finished steel products per man-hour worked have not increased at any such pace—even with the help of billions of dollars worth of improved equipment and processes installed by the steel companies. In the last 18 years steel shipments per man-hour worked have gone up only 30 percent. Unfortunately this tremendous and growing gap between shipments and wages is inflation. The big job for everybody is to help close the gap, not widen it. Until that is done nobody can win the fight against inflation.

The American Iron and Steel Institute brings you this message from the steel industry because

Inflation robs us all
